

DDNPI501 Network Power Supply Supplements DyNet network DC supply

The Philips Dynalite DDNP1501 is a 15 V DC 1.5 A regulated power supply designed to supplement the DyNet network DC supply.

- No manual selector setting requirement —
 The switchmode design allows the device to be used with a range of input voltages.
- Used when high supply devices are employed
 — The DyNet network is self-powered via
 built-in DC supplies integrated within all mains
 powered devices. Use of high supply devices,
 such as edge-lit touchscreens, can necessitate a
 requirement for additional power.
- Flexible mounting solution A DIN-rail mountable device, with a circuit breaker profile designed to be installed into all types of distribution board enclosures, including those with cover apertures specifically designed for circuit breakers.
